1898 - 2013

115 years tradition and experience

Our traditional Brush manufacture was established in 1898 in Bechhofen, a small city in Bavaria. Here Karl Feurer established a small Brush Factory where he produced a wide range of finest Hair- and Quill Brushes.

Soon the Company had to be expanded and Karl Feurer needed more space for the production of his paint brushes and so in 1903 he bought a bigger area in the small village Burk. Until now our company is located in this community amongst of meadows, fields and forest.
The company's first costumers lived in the neighbourhood, but soon costumers in foreign countries - especially in the south and south-east of Europe - were won. During the 1930's Feurer & Sohn established a market in the British Kingdom and the United States of America. The name "kolibri" was not yet featured as a brand name for high quality handcrafted paint brushes.
In this time – more than 80 years ago – the customers in the United States needed much time from the order until to receive the artist brushes. Only the order needed more than 3 weeks by post mail from New York to Burk in Germany.

In the year 1936 Otto Feurer took over the company from his father Karl. In this time period the first reconstruction of building complex was carry out.

The time during and after the Second World War was very difficult for the company. The cooperation with many foreign customers was interrupted, but 1950/1951 the export could be taken up again.

Since than the exports got higher continue every year. Today over 70% of the production is exported in 42 foreign countries, e.g. European States, United States of America, New Zealand, South Africa, Canada and Mexico.

The company was developed further by Eduard - Eddie - Feurer from 1960 to 2002. With hard work and engagement the cooperation between the company and the customers were developed further and new customers were persuaded to buy the handcrafted artists brushes. Many customers buy their brushes from us for nearly 60 years.

At the beginning in 1898 all brushes are made of natural hair, natural quills and wooden handles. In the meantime, especially in the last 30 years more and more for brush making best suitable synthetic hair comes on the market. Also Feurer & Sohn started to work with synthetic hair and collected much experience. But as before- until now we are manufacturing brushes made of finest natural hairs, natural goose quills and wooden handles.

Since 2003 when Eddie retired - Katrin Hubricht, Thomas Hackenberger and son Martin are the new owners. They feel obliged to quality and lead the company on its traditional way.
2010 Martin Hackenberger finished with very good results his studies to became the title
"Master of brush making"

The product range of the company Feurer & Sohn GmbH - kolibri Brushes contains one of the largest ranges in the world of finest brushes for all techniques of painting. Besides our standard lines- over 250 different kinds of brushes- we produce a lot of brushes on request.

All our brushes - from standard lines to custom brushes – are origin handmade in Burk/ Germany.

It isn't possible to grant quality and service without the help of our 10 high qualified workers. Some of them work at our company for more than 25 years already.

Fortunately on the other side also young people learn how to make brushes by hand at our company because we are sure that our clients expect quality from us in the future as well. So now we are a traditional company with well established craftsmen's and 3 young people with fresh and modern ideas.

About hairs

It may be interesting to know that Theo production of hair and bristle brushes in Germany can be traced back to as early the 18th century, with fine brushes been made especially in the Burk area.

Ever since and up to our present day and time, animal hair imported from various parts of both Europe and Asia, has been and is used for the production of brushes.
The following will give you some more detailed information on the most used types of hair.

Red Sable Hair
Red Sable hair comes from the tails of marten. This type of hair is the most elastic hair and it is, therefore, best suited for artists' brushes. Brushes made from this material are unparalleled for their fineness and durability.

Kolinsky Hair
Kolinsky is the absolutely best natural hair for artists' brushes. It comes from the tails of Siberian Kolinsky martens.

Imitation Sable Hair (Sabeline)
The often called Red Sable imitation is made from ox ear hair which is dyed in a color similar to that of red sable hair.
Only ox ear hair with the best tips is suited for this purpose.

Ox Ear Hair
Is fine, elastic and with best tips. It is particularly qualified for the production of sign writer-, lining brushes, oil artists' bights, rounds and flats and last but not least for lacquering brushes.

Fitch Hair
Fitch Hair comes from the Russian Polecat. This hair is black- grayish color and is short in length. Its fineness and elasticity is almost up the quality of red sable hair. Artists' brushes such as oil painting brushes, china painting brushes and best water color brushes are made from this type of natural hair.

Squirrel Hair
Squirrel hair comes from the tails of different species of squirrels.

a) Hair from the Kasan Squirrel which lives in East Russia is used for brushes that serve for painting on smooth surfaces in the china and glassware industry.

.

b) Talutky squirrel have the longest hair of all squirrels. Their quality matches that of Kasan squirrel hair.
Talutky squirrel hair has its special use in the production of writing brushes and liners.

c) Hair from Canadian squirrels is generally of short length and of a yellow-blackish color. This hair has particularly fine tips and is used for quality water color brushes.

Pony Hair
Pony hair comes from Japan and China. This hair is available in different shades, from light red to dark brown and black. Although it is equally a soft material, it is not as fine and resilient as squirrel hair. This is why only regular water color brushes are made of this type of material.

Goat Hair
Goar hair comes from China and India. This is grey, brown, black or white in color. Larger sized brushes such as mops and flats and cosmetic brushes are made of goat hair.

(Hog) Bristles
The best qualities come from the highlands in north- Easter part of China.
Two characteristics of a quality bristle brush are flagged tips and interlocked construction. Natural bristle has a split tip called a flag. This flag helps the brush hold maximum paint and acts as an extra "paintbrush" during application. The lack of flags on a bristle brush indicates a brush which has been cut, not hand shaped.

Synthetic Hair
Synthetic hair in thickness of 0.06 – 0.15 mm has been used in recent years with great success. It emerges in an extremely fine point which is almost identical with sable hair. The special features which we are use are the conical shape, the well structured surface which takes over the function of the scales on natural hair and guarantees an even color distribution.

"Artificial Bristles"
Artificial bristles with a diameter of 0.20 mm upwards are fibers which display very good elasticity, an extremely long service life and high level of sharp retention. They are used primarily in brushes for acrylic painting.

The range and the several of qualities of synthetic hair and artificial bristles are very wide. That's why it is impossible to compare only the price of synthetic brushes.

Aquarellpinsel — kolibri SQI — Water Colour Brushes

Aquarell - Water Colour Line

Superweiche Fehhaar-Imitation mit feinsten Spitzen, sehr haltbare Form, kein “haaren”.

General Terms and Conditions (abstract)

All orders are accepted and processed on the basic of the conditions stated below. The purchaser acknowledges these through placing his order. Other conditions are valid only with our written permission.

Prices:	All our prices are quoted per piece. On all our prices as shown we afford a permanently discount rate. All offers are without engagement and exclude the statutory Value Added Tax. Our prices do not include any grants for value dates, subsidies for advertising costs and catalogues.
Delivery:	Export orders above € 1000.00 freight paid free German boarder or f.o.b. Nuremberg airport, unless other conditions of delivery have been agreed. Shipments are effected to the account of the purchaser. All goods supplied are insured through our company. Delivery time information's are principle ex factory. For running time of forwarders we cannot give any grant.
Packing:	All our brushes are sold in Packing-Units. We have to charge additional 10% when buying less than one Packing-Unit or other conditions have been agreed.
Payment:	The invoice amount is due for payment as below: Payment before shipment with 3% cash discount within 10 days of the date of invoice with 2% cash discount, or within 30 days of the date of invoice net. Checks are accepted and are subject to clearance. Interest at a rate of 3% above the respective discount rate of EZB is due on overdue payments.
New Customer	For initial orders from new customers we ask for 2 Trade references that we are able to contact by fax or by telephone. In addition please submit a Bank reference. Otherwise delivery will be made against bank guaranty or Irrevocable Letter of Credit only.
Reservation of propriety rights:	All goods delivered remain our propriety until the complete amount has been paid, also in case of processing and reselling. The claims of the purchaser which arise from any further disposal of the goods are hereby now transferred to us as security for our own claims.
Complains:	Complains only can be made within 8 days from receipt of the goods and must be notified to us in writing without delay. If they are justified, we will replace the value or the brushes. Further entitlements for compensation cannot be accepted.
Liabilities:	Place of performance for all liabilities shall be D-91596 Burk, Germany. The court at Ansbach, Germany, shall have jurisdiction over both parties. Unless otherwise agreed is essential the law of the Federal Republic of Germany.
Miscellaneous:	The full version of our terms and conditions we will send on request to you.
